## AN OPEN LETTER TO COLLECTORS.

Fall is with us again and with it we announce our first Public Auction Sale of Coins for the Season of 1923-24. We are reminded also that **it is just twenty years this year, 1923**, since our first auction sale of coins took place. The first Elder sale was held in the city of Pittsburg, in 1903, one year before our removal to New York City. The sale included some desirable coins with splendid Pine and Oak Tree money. We remember that it was the late Dewitt S. Smith who bid on and secured most of those Massachusetts silver coins. Since that early date we have catalogued and auctioned off hundreds of thousands of coins, of all classes obtainable, and many of them were of the highest numismatic interest and rarity. Hundreds of letters, on file with us at the present time, speak of our fair treatment and of the satisfaction of collectors with the results obtained through both buying and selling coins for them.

It must be remembered by coin lovers that while in the past some fine records were made at our, and at other, coin sales, still collectors must admit that never at any time have the prices been strictly commensurate with the interest and rarity of the coins themselves, when we consider the small number of really big and important collectors. By important collectors we mean for the moment the collectors of wealth who will go after the big rarities. In other words, **your coins are worth far more than you ever paid for them.** Let me cite an instance. At the recent exhibition in London of the International Philatelic Societies, a collector of Utica, N. Y. showed a stamp for which he had paid \$25,000! Think of it, this tiny bit of paper not an inch square would have been carried off by any gust of wind and probably lost, had it not been carefully mounted and protected. On account of the perishable nature of their composition, postage stamps are bound to fade and become ultimately absolutely indiscipherable within two hundred years, whereas coins 2300 years old are found and are to be had in almost perfect mint state. Coins, we hold are a vast deal more rare than postage stamps, and were there three times the number of big collectors who are at present engaged in our pursuit for coins, a Baldwin & Co. \$10 gold coin which now sells from \$1,500 to \$2,000 would bring \$5,000. "Collectors," as my good friend, Mr. W. F. Dunham, of Chicago, writes me, "should talk \$5,000 and \$10,000 coins." Coins are to the writer's mind more important archaeologically and even artistically than postage stamps, because coins are the workmanship of the greatest artists of Greece and date from the sixth or seventh century before Christ, while stamps have been invented less than a hundred years. So coin collectors have no reason whatsoever to be ashamed of their hobby. Think of the ease, and the slight expense with which a coin collection may be started.

in this era of the **sixty cent dollar**. While many coins, medals and paper money have advanced in price, still please consider how many very desirable United States silver and bronze coins may be had for ridiculously small prices, and how many interesting ancient bronze and silver coins, not to speak of numerous medals and the large variety of cheap priced foreign silver, copper and nickel coins. The "dollars of our daddies," the old half dollars, and the twenty cent pieces, are really in this day of cheap money selling for far less than face value. Just think, one may buy at almost any auction sale an unopened bundle of 100 \$100 Confederate Notes, in fine condition, bearing numerous interest marks and over 60 years old, for less than 5 cents apiece!

Think of the interesting foreign silver coins under dollar size to be had for about face value, and of the interesting foreign portrait crowns dating back from 100 to 250 years, which are at this day to be had in dollar size for only a little over face value.

Few of our lay citizens know that quite a variety of American Colonial and Continental notes, dated prior to 1780, and bearing from two to three original ink signatures of men prominent in their day, are to be had for from 35 to 50c. a note.

Or again, one may obtain a collection of all of the large United States Cents, which were issued between 1793 and 1857, lacking only a few dates, a collection in good condition, with some fine, for not over ten or twelve dollars.

There surely is no other pursuit where one may get so much recreation and relaxation from business cares as by the study and collecting of coins and paper money. And then he has in addition to the fun the option of selling his collection later on often for far more than it cost him. Some Canadian coins are so rare that were a dozen new active collectors of importance to suddenly take an interest in them the prices would triple and quadruple. Only five or six additional rich American collectors are needed to send the prices of United States and Private gold skyward. Let us boost coin collecting and try to make new collectors. And, rest assured, your coins, medals and paper money are vastly more valuable than current prices would indicate.

From all angles, archaeologically, historically, artistically and intrinsically, coin collecting is worth while, and we predict a much brighter future for Numismatics. The more the public learns about it the more important will it become in the United States. Be a propagandist for Numismatics. Talk Coins.

THOMAS L. ELDER, President and Treasurer.

### CONDITIONS OF SALE.

This is a bona-fide public sale, for prompt cash settlement, and irresponsible persons who are not sure whether they can pay for what they bid on, are asked not to bid. The cataloguer has taken special pains to describe each lot accurately. Errors will be corrected, but he reserves the sole right to decide upon any claims. No corrections or refunds will be made, and no lots can be returned, unless the bidder submits his case in writing **within 30 days of the date of the sale.**

Coins and medals are sold at so much per **PIECE**, and no lot will be separated. The auctioneer will accept any bid up to 50c., then 5c up to \$2.50, when 10c. advance must be bid, up to \$10.00, when no advance under 25 cents will be accepted. If there are 5 pieces in the lot and you wish to pay \$5.00 for the entire lot, then bid \$1.00.

Auction sales are **strictly for cash.** Parties unknown to me and bidding for the first time, must give bank or other reliable reference, or their bids will not be executed.

Forward your bids as early as possible, as thousands of bids have to be entered. Do not make ridiculously low bids, such as 10c. and 15c. on foreign silver coins worth several times over as bullion. Write your bids plainly, with a pen if practicable.

Where the number of pieces in a lot is not given after the description, there is but one piece in the lot.

**Be sure you bid on the lot you wish to buy.**

All coins, etc., are genuine unless otherwise described.

A charge of 5 % will be made to cover packing and shipping, but where the parcel is bulky an additional packing charge will be made. No charge made for bidding except for lots actually purchased. Remit by money order or New York draft.

If any further information is required as to valuation of lots, or how to bid, please write the cataloguer, **THOMAS L. ELDER.**

**Important Notice.** We keep two books of the sale recording each lot as sold, and we will not accept any sale records from outsiders. **Our records are final.**

**No priced catalogue will be furnished of this sale.**

**Read Sale Terms Before Bidding.**
